DIDSBURY, ALBERTA, WEDNESDAY, SEPT. 17, 1947

\$2.00 A YEAR; 5¢ A COPY

TRUCKS OF LIGHT DELIVERY TYPE MAY PARK ON STREET

Mayor H. Lynch-Staunton and all Councillors were present at the meeting of the Town Council on Monday night and considerable business was transacted.

A clarification was made in the truck parking by-law which prohibits trucks from parking on the street from the Royal Bank corner to the telephone office. The by-law reads that all trucks, other than light deliveries, must not park on this street.

Three building lots were sold by the town and Council approved one old age pension application.

A petition was presented by business men on main street asking for a drainage system in the alley and Council decided to make some improvement.

Delegates will be sent to the Municipal Districts Convention to be held at Lethbridge on October 16 and 17.

Fred L. Evans was appointed as enumerator to compile the supplementary voters' list. All residents over 21 years of age, British subjects and resident in Didsbury prior to April 1, 1947, may have their names added to the voters' list.

IVA EDGERTON HONORED AT SURPRISE FAREWELL

A surprise farewell party honoring Miss Iva Edgerton was held at the home of Mr. and Mrs. Walter Reiffenstein on Wednesday, September 10th. Seventeen guests were present and the evening was spent in playing games, after which a delightful lunch was served.

A purse of money was presented to Miss Edgerton as a token of the high esteem in which she is held by her many friends. A good time was had by all and the evening closed with the singing of "For She's a Jolly Good Fellow."

Miss Edgerton left Monday for Portland, Oregon, where she will take her course's.

TIRE PRICES REDUCED 14%

Last week most major Canadian tire manufacturers announced a reduction in the price of the tire tread. This reduction became effective immediately and brings tires down below pre-war levels.

The price of a 16x8.00 4-ply tire was \$21.55. With a 14 per cent reduction in price or \$3.10 this same tire will now sell in Didsbury for \$18.45.

FORTY YEARS AGO

September 13, 1907

Work is being rushed on John Lessner's new block west of Stader's store.

A carload of machinery arrived last week for the flour mill and Mr. Weier expects to receive the remainder of the equipment in a short time. The name of the flour manufacturer will be "Maple Leaf."

A gun club is being organized by the young men of the town.

Spring and red winter wheat are now quoted at 77 cents per bushel at the Didsbury elevator. Butter is up to 20 cents a pound and eggs 22 cents a dozen.

Olds Board of Trade is endeavoring to secure expert opinion on the matter of developing water power on the Little Red Deer river 13 miles west of that town.

The town team was sold to the city of Edmonton for \$675.

The R.N.W.M.P. force in Alberta now totals 250 men.

C.P.R. TRAIN TIME TABLE

Train No.	To Edmonton	To Calgary

All the above trains are daily

MR. AND MRS. R. ADY OPEN NEW STORE AT OLDS

An advertisement in last week's issue of "The Olds Gazette" announced the opening on September 15th of "Ady's Ladies' and Children's Wear" store in that town.

Mr. and Mrs. Ady, well-known and respected citizens of Didsbury, operated the "Bright Spot" in town for nine years and sold out to Charlie Stockburger, who in turn sold to Minnie and Albert Schmidmiller. Since then Mr. and Mrs. Ady have resided in Didsbury and will continue to do so until such time as they can secure a home in Olds.

The many friends of the Adys wish them every success in their new venture.

OLDS LETS CONTRACTS FOR WATER AND SEWAGE

The Council of the Town of Olds has let contracts for sewer pipe and water pipe supplies and plan to go ahead with the project as soon as possible.

The contract for sewer pipe has been let to Alberta Clay Products, Ltd. of Medicine Hat and delivery is expected to start after November 1st this year. The water pipe has been contracted for by the Johns-Manville Co. Ltd. and delivery has been set for the period of from January 1st to June 1948.

Wilson and Wilson Construction Company of Edmonton will do the construction work of laying pipes and building the sewer disposal plant. The Dominion Bridge Company will construct the water tower.

The fire bell sounded Monday afternoon, the scene of the conflagration being the garage on the Ed Ford residence property. Quick action on the part of the fire brigade saved the building from complete loss.

BERGEN NEWS NOTES

Louie Lund and wife visited his parents.

Endred Mjolsness has moved his house from the Bergen store onto the S.W. 5-32-5-5, across the road north from Wesley Haug's place.

Lyle's "cat" is being used on the north of the town line between sections 5 and 6 in township 32.

Joe Erickson and Norman Halvorson are grading the roads on the township line between showers. The number of times they have been mired in the bottomless pits and managed to wriggle out, I cannot say.

Endred Mjolsness hauled his plow south to Carl Nelson's place. He owns the S.E. of 24-31-6-3 and some of section 19, just east of the home place on section 24.

Walter Gamble was expected home from Chilliwack, B.C., last Friday.

Carl Dick is the supervisor of the Eidsvold school. The correspondence courses came on Friday so the pupils can now go to work in earnest.

After a wedding trip to Calgary, the bride and groom will reside temporarily at Bergen, Alta. The couple plan to do missionary work.

—Chilliwack Progress.

OFFICIAL OPENING OF YELLOWKNIFE AIRPORT

W.M. Neal, chairman and president of the Canadian Pacific Railway, is shown as he recently cut the tape which opened a new permanent runway at the Yellowknife airport for service. The mile-long runway, first of its kind to be built at the airport, was described by Mr.

GUN CLUB NOTES

Owing to reverting to standard time the Didsbury Gun Club held its last Tuesday evening shoot on Sept. 9th, with only five gun arists the shooters before the round could be completed and scores were not up to par, although A.G. Studer was back in form to top the list with 16. Other scores were Larson 14; Klein 14; Rouleau 13 and Ran-

14. Klein 14; Rouleau 13 and Ran-11.

TO COMMENCE PAYMENT OF PENSION INCREASES

Old age pension increases retroactive to May 1 will start being paid in Alberta "right away," A.R. Miller, deputy minister of public welfare has announced.

Increases in the basic old age pension grant by federal and provincial governments raised pensions in Alberta to \$33 a month. The basic pension is \$30, of which the federal government contributes 75 per cent and the province 25 per cent. In addition, Alberta makes a grant of \$5.

Federal legislation providing for the increase was approved at the last session of the Ottawa house but an actual start on the payment of pensions had to await formal approval of the legislation by the various provinces. This now has been done and Alberta pensioners soon will be getting their enlarged pension payments.

A new cement sidewalk has been put down in front of the Cassidy Lumber Yard building.

JAMES GAMBLE MARRIED TO MISS BERTHA MARTENS

Emmanuel Pentecostal Holiness church was the scene of a quiet wedding recently when Bertha Miriam Martens exchanged marriage vows with Rev. James H. Gamble before Rev. J.M. MacLean. The bride is the daughter of Mr. and Mrs. W.W. Martens, Yarrow while the groom is the son of Mr. and Mrs. Ira S. Gamble, Bergen.

Given in marriage by her uncle, J.W. Martens, Dallas, Ore., the bride chose a dove grey tailleur complemented by a corsage of pink rosebuds. The color note of her rosebuds was repeated in her accessories.

Miss Elsie Martens, as her sister's bridesmaid, also wore a grey suit with pink accessories and a corsage of pink carnations. Ivan Gamble was his brother's groomsman and Walter and Gamble, Ira and Gamble Jr., also brothers, were ushers.

Miss Gertrude Miller played the wedding music and Dale Dunn was soloist.

A reception was held at the home of Miss Bessie Cartmel, Fairfield Island, where waiters were Miss Hazel Moffat, Miss Elma Kniipe, Miss Eva Cartmel, Miss Nellie Cartmel, Miss Clara Cartmel and Miss Martin.

After a wedding trip to Calgary, the bride and groom will reside temporarily at Bergen, Alta. The couple plan to do missionary work.

—Chilliwack Progress.

M. WEBER REPORTS A SECOND CROP OF PEAS

To get one crop of peas is almost a certainty in this district, but Mr. Weber says when you can get two crops off the same vines you are living in the banana belt. But that is just what he accomplished and is now picking well-filled peas of a second growth on the original plants. Some of the first growth peas are still on the vines and have gone to seed. The top portion of the plants have begun to grow again and due to lack of early frosts and plenty of late moisture the second growth has blossomed out and has provided a good crop of peas.

The variety is "Lincoln" and is well suited to the climate in this part of Alberta.

RIPPING OVERALLS AVERTS BAD INJURY

Didsbury farmer C.E. Tugge can thank the inferior quality of his overalls for the fact that he is still relatively sound in wind and limb today.

Recently, while operating a combine, his overalls got caught in the power take-off. The take-off practically took off Mr. Tugge's overalls, tearing them beyond repair and leaving him with a badly bruised leg.—The Calgary Albertan.

LOCAL NEWS ITEMS

Guy Severs was a Calgary visitor Tuesday.

The regular meeting of the Didsbury branch of the Canadian Legion will be held on Thursday, September 23, at 8 p.m.

Mr. and Mrs. Jake Glaum returned last week from a motor trip to Rochester, where Jake went for medical treatment.

Community service at the M.B.C. Church, Didsbury, will be held at 10:30 a.m. on Sunday, September 21. Sunday school will be held at the regular time of 1:30 p.m. The evening service at 7:45 will be a young people's service, and Rev. A. Frey will be special speaker.

Mr. and Mrs. Arden Deadrick and Dalton motored to Edmonton Sunday where Dalton will continue his studies at the University. Mrs. J.R. Cunningham accompanied them and visited her daughter, Mrs. (Alma) Shannon, who is a patient in the Royal Alexander hospital, and she is looking well and expects to leave the hospital in a few days.

PAYNE-FREEMAN CO. INSTALS NEW EQUIPMENT

Remodeling of Payne-Freeman Co. garage has now been completed. The new cement floor was laid last week and stock has now been moved back in place so that customers can be properly served once more.

New equipment added at Payne-Freeman Co. includes a South Bend lathe with seven foot bed and thirteen inch swing, and a Smith electric welder.

PETER MORASCH DIES IN CALGARY HOSPITAL

A member of Jehovah Lutheran Church, Peter Morasch, 74, of 639 Mercier Road died in a Calgary hospital Saturday, September 13. Born in Saratov, Russia, he came to Calgary in 1907, and farmed in the Castairston district from 1920 to 1940, when he returned to Calgary.

Surviving are his widow, Katherine, of Calgary; two sons, Peter and John, of Galt, Ont.; three daughters, Mrs. John Poffenroth of Calgary and Mrs. Peter Nuss of Didsbury; 13 grandchildren and three great grandchildren.

Funeral services were held Tuesday at 2 p.m. from the Jehovah Lutheran church, Rev. Ph. Unterhultz officiating. Interment followed in Union cemetery, Calgary.

NEED LARGER GOVERNMENT GRANTS FOR SCHOOL PURPOSES

A general inquiry into taxation is now being held at various points in Alberta by the provincial government and municipalities, cities, towns and villages have been asked to file briefs, giving their general views on the matter.

The main reason for rising taxation all over Alberta seems to be the increased educational costs, and in Didsbury this is no exception. Town taxes this year are 44 mills on the dollar, with schools requiring 21½ mills to operate. With the assessment based on 100 cents on the dollar this 4½ figure comes out at 66 mills on the dollar which is considered too high by even our provincial authorities.

In the Municipal District of Mountain View the general tax rate is 17 mills; school tax rate in Olds School Division is 17½ mills.

From the above figures, taking off approximately 5 mills for hospitals, it can be seen that it requires more money for education than it does to operate either the town or the municipal district. Since schools are necessary and with little hope for a decrease in educational costs, it seems that either the general welfare of towns and municipalities must suffer, or taxes must be increased to provide the improvements we now demand but cannot afford.

It has been suggested for Alberta, and has been tried in Saskatchewan and some states in the United States, that a two per cent educational tax should be put on all purchases of goods and services in the Province. This, however, is certainly not a solution to increased local taxes, and we don't want such a tax in Alberta. It is only a nuisance tax and would require more bookkeeping and returns to government offices.

Realizing that general taxation has reached its limit there appears only one solution to taxation problems and that is increased grants for schools from the provincial government by decreasing grants to other services, and for large school grants from the federal government, with funds for this purpose being taken out of general revenue.

SHOP IN DIDSBURY

The fall season is approaching and with it comes increased purchasing power due to annual returns from crops and livestock sales. Farmers and townspersons are preparing for the winter ahead and will require not only winter clothing, household furnishings and fuel but also the winter's grocery supply, all of which should be purchased in Didsbury if at all possible.

By buying in your home town you enable local business places to carry better stocks, giving you better selections of goods, and at the same time you are helping to keep in business the men who pay the heavy taxes. It is these taxes which go a long way towards providing for our schools, public utilities and upkeep of streets and roads.

The business men are dependent on the farmer, but the farmer is also dependent on the business men for service and goods in short supply. A good town is an asset to any farmer and to make and keep Didsbury an up-and-coming centre we should all patronize our local business places whenever possible.

Canada contracted to supply to Great Britain between 250,000,000 and 265,000,000 pounds of bacon during the calendar year, of which 108,322,035 had been shipped by July 15.

No matter how young a child is, too long, the vision of the squint should be given special medical attention if he squints. Medical This, the experts say, is very likely authorities declare that squinting to occur if nothing is done before which develops in infancy should the age of five or six years is investigated and treated. If left reached.

NOTES FROM THE EAST

The Lone Pine W.I. met at the home of the president, Mrs. S. Elliott, and the members were honored by a visit from the constituency convention. Mrs. J. Robertson, whose meeting opened in the usual manner and Roll Call was answered with a recipe for a vegetable dish. The business part of the meeting then took place and was followed by a talk given by Mrs. Robertson. The items for handicrafts were decided upon for the conference next year. The conducting of a small auction sale caused a little excitement and much laughter. Mrs. Chris Ehret was to have conducted the "bit of fun" but due to the lateness of the hour the contest was dispensed with. The ten cent draw was won by Mrs. Ehret. The meeting closed with the singing of God Save The King. Lunch followed and the ladies hurried home to prepare supplies for the harvesters and stockmen.

Mr. and Mrs. Walter McCullough with visitors Mr. and Mrs. Otto Bremmer, Saturday.

Mrs. Evelyn Dowell and Miss Muriel Haynes have been doing their bit during threshing by running the tractor at times. Because of the changeable weather, we must make hay while the sun shines.

Mr. Hugh McLean was a Sunday visitor at the home of Mr. Chris Winters.

THE PRICE OF MILK

(A farmer's letter quoted by the Cornwall Standard-Freeholder)

The price of milk seems to be your great worry now. And your solution for cheapening it is for the farmer to cheapen it.

There are two ways I could do this. First, I could milk more cows. My wife and I could get up at 3:30 instead of 4:30 and care for twice the number we are now milking. Or I could shake my three young sons awake at 4:30 and make them help, only they are children and growing and need their sleep. Besides who wants to benefit by child labor?

Second, I could buy a tractor and work my place better, buy a milking machine, a hayloader, a side delivery rake and hire a couple of men. That would mean a cash outlay of from \$2,000 to \$2,500 depending on the size of machinery bought. Also a wage outlay of at least \$100 a month.

And to what end? So that the men who make that machinery and who work forty hours a week and are continually striking for higher pay, can buy cheaper milk. Brother do you see any great in my eye.

During six years of war Canada had 94,000 war casualties and 170,000 street or highway accidents.

GOPHER STEALS SCENE THEN QUICKLY STEALS AWAY

Everybody wants to get in the act—even gophers.

Romane Reagan, Alexis Smith and Zachary Scott, stars of "Warner Bros. film, 'Station Ride,'" coming to the Didsbury Opera Theatre this week, were before the cameras on location at the R.M. Griffith ranch in Hidden Valley.

Suddenly a ready-eyed gopher popped out of his tunnel and into camera range. Surprised by the unexpected entrance they forgot their lines and ruined the "take."

"Cut!" shouted director Jimmy Kern and walked over to the fast disappearing rodent. "That's not the way to break into pictures," advised Kern, "You have to come through casting first."

SALE AND REDEMPTION OF IMPOUNDED ANIMALS (Sec. 48)

The Domestic Animals Act (Municipalities)

Notice is hereby given under Section 48 of The Domestic Animals Act (Municipalities) that Dark Brown Goldendoodle dog, snip on face, mottled brand, 10 months impounded in the pound kept by Wm. Habermann located on the N.E. 22-31-25 on the 29th day of August, A.D. 1947, and that the said animal was sold on the 12th day of September, 1947, to Lloyd Kershaw of Didsbury and that said animal may be redeemed by the owner or on his behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the municipality and the cost of said animal!

For information apply to the undersigned.

WILL PERMIT WINTER TRAPPING OF MUSKRATS

Winter trapping of muskrats will be permitted in Alberta for the first time from Nov. 15 to May 15, following a decision of the provincial government last week.

The season is being extended in an effort to place on the market hides of hundreds of muskrats killed nearly every winter through freezing of shallow ponds and marshes.

Trapping will be allowed under special permit issued to holders of a certificate of registration of a trapline or trapping area. Investigation will be conducted by game officers of the advisability of issuing permits in any area after application for a permit from a trapper. Those obtaining permits will have to report trapping results at the end of the season.

Bodies of dead muskrats have been found in the bottom of shallow sloughs and potholes every spring. The animals die when a cold snap results in freezing the water to the bottom of the pond.

Open season for fox is Nov. 1 to Jan. 15; mink Nov. 15 to Feb. 28; otter Nov. 1 to March 31; red squirrel Nov. 15 to Feb. 28.

Beaver may be trapped by special permit on registered traplines from April 1 to May 15. The same ruling applies to muskrat from Nov. 15 to May 15. Marten may also be caught on registered lines provided it is not taken east of the Fifth Meridian. The marten season is from Dec. 1 to Jan. 15.

There is no open season for lynx and fisher.

FORECAST MADE ON CANADIAN GRAIN CROPS

The grain supply situation in Canada for the 1947-48 crop year is less favorable than a year ago, says the Current Review of Agricultural Conditions in Canada. The carry-over of wheat and coarse grains from the 1946-47 crop is again at a near minimum working level. Estimates of wheat production for the current year indicate a reduction of 15 per cent while a reduction of 10 per cent is anticipated for coarse grains. The earlier favorable outlook for good yields in Western Canada deteriorated in July when high temperatures and lack of rain extended over wide areas. This was followed by insect

and hail damage. However, in Ontario and Quebec, hot dry weather in August permitted sowing of fall-sown and early spring-sown grains. In the Maritimes, adequate rainfall and warm weather resulted in prospects for good yields.

The 1947 Canadian wheat crop is estimated at 358,700,000 bushels, of which 336,000,000 bushels is the Western production, says the Review. Total coarse grain production is estimated at 567,404,000 bushels. The total yield of oats is placed at 400,000,000 bushels, a reduction of 27 per cent in both Eastern and Western Canada. Barley production is estimated at 150 million bushels, a reduction of 3 per cent from 1946. The rye crop is expected to amount to 7,448,000 bushels, an increase of 80 per cent. Eastern Canada's coarse grain production is 27 per cent below 1946. In Western Canada, where about 75 per cent of the country's coarse grain will be produced this year, the reduction amounts to a total of 16 per cent.

BRITAIN FINDS SUBSTITUTE FOR LINSEED OIL

After four years of research a United Kingdom research team has found what is believed to be a successful substitute for linseed oil — linseed oil, an import that now costs Britain large sums. The end of the long search came when a woody vine, growing in the jungle of the British territories of Sierra Leone, Nigeria, and other parts of tropical Africa, was analyzed. Scientists call it tetracramidum conophorum. The seeds of the vines have a hard black shell enclosing a white oil kernel. This kernel contains up to 60 per cent of a cream-colored oil which has the quality and odor of linseed oil. Extensive tests have shown that various paints and varnishes can be made from this oil, which is known as Copomor oil.

AIR ESCAPE AT 500 M.P.H.

An employee of a United Kingdom aircraft firm recently made a successful descent from a jet fighter flying over 500 m.p.h. This is the highest speed at which anyone has ever been ejected from a plane. The object of the descent was to test new apparatus invented by the head of a United Kingdom aircraft firm.

U.S. WHEAT CROP

The United States August crop estimate places the wheat crop of that nation at 1,428 million bushels, some 8 millions below the July crop estimate of 1,436 million bushels. The reduction in the estimated yield was due to a slight decrease in the spring wheat crop.

This year's wheat crop is the largest crop on record for the Unit-

ed States, being 272 million bushels larger than last year's crop of 1,156 millions, which was the largest on record at that time. The ten-year average production from 1936 to 1946 was 890 million bushels.

ELECTRICITY PROVES BIG HELP ON THE FARM

E.B. Martin, Extension Agricultural Engineer for the Alberta Department of Agriculture, says that few Alberta farmers who have electricity available make full use of it—in spite of the fact that the more kilowatt hours used the less it costs for each kilowatt hour of energy.

The number of ways in which electricity can be used on the farm is almost unbelievable. Mr. Martin estimates that of the 300 or so that are listed from time to time, 75 can be put to practical use on the average farm in this province. They will pay for themselves again and again in time and labor saved. At a cost of \$600 for installation and another \$600 for equipment, an average farm electrification unit requires an investment of \$1200. That \$1200 investment should be used to the fullest extent economically possible.

Mr. Martin cites as an example the case of two neighbors, both with the same source of power. One of them uses his electricity merely for lights in the house. He consumes, say, 20 kilowatt hours in an average month at the minimum cost of \$.55. His neighbor, who has an electric motor on the pump, a pig brooder, a hot plate, a quarter horse-power portable on the fanning mill and bench grindstone, as well as lights in the house, barn, pigsty, pump house, granary and shop uses about 90 kilowatt hours in an average month. He has a bill of \$5.50 (the minimum), plus 70 kilowatt hours at 2 cents, or \$1.40, to give a total of \$6.90. For all this additional energy the cost to this farmer has been \$1.40 per month.

Mr. Martin will be pleased to offer suggestions on the use of electricity on the farm, and to receive enquiries with reference to other phases of farm electrification. Address your letters to E.B. Martin, Extension Agricultural Engineer, Alberta Department of Agriculture, Edmonton.

Now if Mr. Martin could only tell the rural farmers how to get an extension of rural electrification to farms everyone would be happy.

ARCTIC FARMING HAZARDS NOW BEING ELIMINATED

Dealing with agriculture in the Soviet Union, Agriculture Abroad, issued by the Economics Division, Dominion Department of Agriculture, Ottawa, says in part with reference to the northern regions that farming in the Arctic Circle has about outrun its experimental stage which began in the early 30's. Northern Russia and Siberia with its 4,000 miles of shoreline facing the Arctic Ocean from Murmansk in the west to Anadyr in the east, and extending southward in depth of one to two thousand miles, bears much similarity to Canada's Northwest Territories. The winters are long and cold, the summers very short and warm with long hours of sunshine.

All the Siberian regions north of the 62nd parallel fall under a separate administration which has established a large number of experimental farms throughout the North. Estimated at about 160,000 of 60 degrees latitude. Four central farms are situated at Obdorsk near Ob river, at Igarka along the Yenisei river at a latitude of Fort Good Hope in Canada's MacKenzie District; at Yakutsk on the banks of the Lena River on a latitude about the same as Providence at Great Bear Lake in Canada; and at Anadyr on the Behring Coast along the parallel of Dawson City of Yukon District, Canada.

The northern limit of 63 degrees latitude for the growing of wheat can probably be pushed back in time as far north as 67 degrees, 50 minutes as a result of early ripening hardy strains developed at Khibini where the period of growth is less than three months in the year and snow covers the ground in mid-June.

Personnel for work on northern agricultural stations are trained at Igarka and at the Khibini State Polar Farm in the European country south of Murmansk. The Khibini farm is the most advanced and as far back as 1935 covered about 40,000 acres.

A Dominion Experimental Station has been established at Whitehorse in the Yukon Territory for the purpose of studying agriculture in the far north of Canada.

Instructions to a Chicago baby sitter's group cautions against holding baby over gas to dry the diapers.

INCREASE PRICE OF EXPORT BARLEY

On January 2, 1947, the Right Hon. J.G. Gardiner announced that the export board had been reached with the United Kingdom Ministry of Food for an increase of \$4 per hundred in the price to be paid for Canadian bacon with half of this increase in January and a further \$2 increase on September 1, 1947. The \$2 increase in January raised the price to the United Kingdom from \$25 per hundred pounds for Grade A Wiltshire to \$27. The increase which went into effect on September 1 advanced the price of Grade A Wiltshire to \$29. The price of \$29 remains effective until the end of 1948. In accordance with this statement the Meat Board announced that price schedule for all grades and qualities of Wiltshire Sides would be increased by \$2 a hundred, effective on product from hogs slaughtered on or after Monday, September 1.

The Meat Board further announced that domestic hog quotas, which have applied at all packing establishments in which hogs were graded for Dominion Government premiums, are being abolished as of September 1, 1947. This, in effect, means there are no further restrictions on the slaughter of hogs or on the distribution of pork for Canadian consumption.

WESTERN FARMERS ADVISED TO HOLD GRAIN DELIVERIES

Clarification of the government policy as to removal of price ceilings on coarse grains on October 31st is sought in a telegram forwarded to Prime Minister McKenzie King recently by the North West Elevators Association.

The matter arises through a letter forwarded to 25,000 Manitoba Pool members by W.J. Parker, first vice-president of the Canadian Federation of Agriculture and president of the Manitoba Wheat Pool, in which he advises farmers to withhold delivery of coarse grains owing to the possibility of early removal of price ceilings on oats and barley.

WEDDINGS

SCHAFFER—OLSON

A wedding that created wide interest and gladdened the hearts of their many friends was held recently at the Bergen church, when Clarence Schaeffer of Mayton and Esther Olson of Bergen were united in marriage.

The church windows were filled with beautiful flowers and the arch

of roses before which they stood

seemed to smile an approval as Rev. A. Habermehl, assisted by Rev. Harley Traub, read the sacred ceremony. The bridegroom, while the groom, was groomsman, while Helma Olson, sister of the bride, was bridesmaid. The bride was given away by her brother, Reuben. Mrs. Laad played the wedding music, and while the register was being signed Mr. and Mrs. Traub sang "A Wedding Prayer." Rev. A. Eby and John Snarud were ushers.

As soon as the bridal couple were

-: DISTRICT NEWS:-

BURNSIDE NEWS NOTES

Frost on Monday, September 8, did not do any damage to gardens and grain in the Burnside district.

The Burnside school was visited last Friday by the Rosebud Health District Nurses and pupils were inoculated.

Walter McCleech is the first farmer in the district to complete his threshing. Grenville McCleech has been hauling grain for him.

The threshing machine and combines were held up last week due to rain, with harvesting well under way the first part of the week it will be a few days yet before threshing can be resumed.

Sandy Brander and Charlie Marston started combining last week, and Ivor Weber started threshing. Betty Gill spent the week end with Mrs. Chris Ehret.

Word received from Henry Hooper, who left Didsbury about a year ago for Devonshire, England, states that he expects to return home some time this fall. While in Newton Abbott, Devon, he visited with friends and neighbors of the Mardons.

Brian Page of Edmonton arrived home Saturday on thirty days leave and will help in the harvest fields.

Allie Thompson, who injured his finger while lifting a gasoline barrel, was obliged to take medical treatment.

Mr. and Mrs. Dave Pratt and daughter, Doreen, were dinner guests of Mr. and Mrs. Jack Underhay on Sunday.

A visit to Sunnyslope last week revealed that the gas pumps had been removed at the Sunnyslope Hardware and post office, operated by Spud Frizzell. Spud says he made more money out of the sale of the pumps than he ever made out of selling gas. Since the establishing of rural electrification the Sunnyslope Hardware has installed fluorescent lighting. Incidentally, most of the old lighting plants have now been sold to farmers, and the village will be better lighted from power on avenues and streets.

Mayor Bob Milligan has a light in his yard and supplies light to truckers coming down the hill into Sunnyslope.

We hear that Leonard Falk is doing a good business at Sunnyslope, servicing trucks with gas and repairs. Frank Loewen at the other garage is also kept busy. Also heard that Pete Warkentin of the general store has installed a new electric refrigerator and farmers and townspeople hope he will soon be handling fresh meats.

Bob Milligan sold considerable hail insurance last spring and Don Frizzell and D. Dimmer are now busy collecting grain to pay the premiums.

Mrs. Davison is back teaching at the Selkirk school and takes delight in reading the district news each week in the "Pioneer."

The Sunnyslope Coffee Shop has changed hands. Mrs. Sullivan having rented the business to Mrs. Wilder.

The Co-operative cheese factory is another asset to Sunnyslope, and with gravelled roads the village will soon be a nice little place to live in.

PLEASE PHONE OR BRING IN YOUR NEWS ITEMS

FALLEN TIMBER NOTES

Mr. and Mrs. C. Moore, who have been visiting Mr. and Mrs. J. Howton, returned home Monday.

Five members and three visitors were present at the meeting of the Busy Bees held at the home of Mrs. J. McGaffin. Mrs. Teynor and Mrs. McDonnell convened.

Mr. F. Little, who has been visiting here lately, Mrs. R. McMullen for the last six weeks, returned to her home in Lethbridge last Tuesday, September 2nd.

Miss Dolores Hays was a Didsbury visitor Saturday.

A number of Fallen Timber people journeyed to the Bergen hall on September 12 to attend the Moore and Admussen wedding dance, but owing to the weather the dance was postponed.

Mrs. Bruns has returned home after spending a week with her daughter, Mrs. J. McGaffin.

Mr. R.W. Moore of Calgary has been repairing the fence on his farm near Big Prairie.

The condition of the Burma Road is still highly unsatisfactory tho' some work is being done. It is still too rough for comfortable travel.

WESTERDALE NOTES

The September meeting of the Westerdale Willing Workers was held last Wednesday afternoon at the home of Mrs. D. Herbert, with fifteen members and three visitors present. The meeting opened in the usual manner. Roll Call was answered with a favorite pickle recipe, the 'bread and butter pickle' recipe being the most popular. Owing to the absence of the secretary the minutes of the previous meeting were not read. However, considerable business was transacted and included the raising of the price of quilts from \$10 to \$12.

Tea money draw prizes were won by Mrs. J.P. Schrader and Mrs. W. Herbert. Mrs. Edwin Jackson, who recently arrived here from England, was given a hearty welcome by the members of the organization. The next meeting will be held at the home of Mrs. W. Herbert on October 8.

Mrs. H. Farrant returned to her home at Rosedale, B.C., on Friday last.

Miss Winnie Jackson left Sunday for Calgary where she has accepted a secretarial position.

Mr. and Mrs. R. Jackson and Mr. and Mrs. A. Jackson visited with friends east of Orlons on Sunday.

Miss Olwin Jackson is holidaying at the home of her parents, Mr. and Mrs. A. Jackson.

Bears are prowling around. Ask Ben Parkes.

A heavy frost Saturday night did considerable damage to gardens and flowers, although most of the grain has been cut and has escaped the frost this year.
